ABOUT CUMULUS

Cumulus Motorcycles is a leading electric-powered motorcycle manufacturing company headquartered in California. We are involved in research and manufacturing of affordable, eco-friendly and smart electric motorcycles. We are currently the most technologically advanced bikes on the planet and have also won the Business times 'Economical Automobile of the Year' award in the 'Emerging Markets' category in 2014.

Credit goes to [Zero Motorcycles](#) for photos used in this website.

The Fine Print...

Cumulus Motorcycles obviously is not a real motorcycle company. It was create to demonstrate CCBU's Customer Care User Experiences as they evolve and grow. All model names and pictures were borrowed from [Zero Motorcycles](#) who have no idea their awesome products are being used to help us share our vision of awesome Customer Care.
